#### INDEPENDENT AUDITOR'S REPORT

To the Board of Directors Center for Climate and Energy Solutions, Inc. Washington, D.C.

#### **Opinion**

We have audited the accompanying financial statements of Center for Climate and Energy Solutions, Inc. (a not-for-profit organization) (the Organization), which comprise the Statements of Financial Position as of March 31, 2024 and 2023, and the related Statements of Activities, Functional Expenses, and Cash Flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Center for Climate and Energy Solutions, Inc. as of March 31, 2024 and 2023 and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

# **Basis for Opinion**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Center for Climate and Energy Solutions, Inc. and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

# Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Center for Climate and Energy Solutions, Inc.'s ability to continue as a going concern for one year after the date that the financial statements are issued.

# Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
  include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
  statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
  that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of Center for Climate and Energy Solutions, Inc.'s internal control. Accordingly, no
  such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Center for Climate and Energy Solutions, Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Anderson, Davis & Aswerdy, CP4

Glen Burnie, Maryland August 25, 2025

#### Note 1. ORGANIZATION AND PURPOSE

Center for Climate and Energy Solutions, Inc. (the Organization or C2ES) is a not-for-profit, non-stock organization that was incorporated on March 25, 1998 under the laws of the state of Delaware.

The mission of the Organization is to encourage the design and implementation of government policies and business practices that significantly reduce greenhouse gas emissions. The Organization works towards its goal by:

- Publishing non-partisan analytical work and educating decision makers:
- Promoting public policies and private sector activities that will achieve real emission reductions in the United States; and
- Working to establish an international regime that will result in an effective global response to the climate change issue that can be ratified in the United States.

#### Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Basis of accounting

The accompanying financial statements are presented in accordance with the accrual basis of accounting, whereby unconditional support is recognized when received, revenue is recognized when earned, and expenses are recognized when incurred.

#### Basis of presentation

The Organization follows the Financial Accounting Standards Board (FASB)'s Accounting Standards Update (ASU) No. 2016-14 - Not-for-Profit Entities (Topic 958): *Presentation of Financial Statements of Not-for-Profit Entities*. The Organization presents information regarding its financial position and activities according to two classes of net assets described as follows:

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Organization. These net assets may be used at the discretion of the Organization's management and the Board of Directors.

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors, and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Organization or by the passage of time. Other donor restrictions are perpetual in nature, where by the donor has stipulated the funds be maintained in perpetuity.

Revenues are reported as increases in net assets without donor restrictions unless use of the related assets is limited by donor-imposed restrictions. Expenses are reported as decreases in net assets without donor restrictions. Expirations of donor-imposed restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as reclassifications between applicable classes of net assets.

#### Cash and cash equivalents

The Organization considers all money market funds and highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents.

# <u>Investments</u>

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Net investment income is reported in the Statement of Activities and consist of interest and dividend income, realized and unrealized gains and losses, less external investment expenses. Investment income is recognized when earned.

# Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Accounts receivable

Accounts receivable are due in less than one year and are stated at their net realizable value. Reserves are established for receivables that are delinquent and considered uncollectible based on periodic reviews by management. At March 31, 2024 and 2023, management estimates that all receivables are fully collectible; therefore, no allowance for doubtful accounts has been recorded.

#### Grants receivable

Grant revenue relating to grants with barriers and a requirement to repay any unspent funds is recognized as expenses are incurred or services are billed. Any grant funds remaining unexpended at the end of the grant period may be due back to the grantor. Funds received for grants with barriers but not expended are considered conditional funding and, accordingly, are recorded as refundable advances when received. These amounts are recognized as revenue when expenditures are incurred. For grants without barriers and requirements to repay, grant revenue is recorded upon notification that the grant has been approved as revenue with donor restrictions and the restrictions are released as work progresses. The Organization is subject to audit by granting and contracting authorities. Any adjustments resulting from such audits are recognized at the time of the audit. Management believes any adjustments related to such audits to be immaterial.

Management considers all grant receivables to be collectible as of March 31, 2024 and 2023; therefore, no allowance for doubtful accounts has been recorded.

#### Deferred compensation plan investments

Investments related to the Organization's deferred compensation plan consist of fully benefit-responsive investment contracts and are reported at contract value. Contract value is the relevant measure for such investment contracts because that is the amount participants would receive if they were to initiate permitted transactions under the terms of the deferred compensation plan.

# Property and equipment

Property and equipment are stated at cost, or in the case of donated items, at the estimated fair value at the time of the donation. Depreciation is provided using the straight-line method over the estimated useful lives of the assets as follows:

Computers and computer software 3 years Furniture and fixtures 7 years

Leasehold improvements Lesser of lease term or useful life

Expenditures for maintenance and repairs and relatively minor expenditures for betterments that do not extend the life of an asset beyond its original estimated normal life are charged to expense in the year incurred. Major improvements and repairs over \$500 that extend the life of the asset are capitalized. Upon retirement, sale, or other disposition, the cost and accumulated depreciation are eliminated from the accounts and any resulting gain or loss is included in operations.

The Organization reviews its property and equipment for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. Recoverability of assets held and used is measured by a comparison of the carrying amount of an asset to undiscounted expected cash flows. Future events could cause the Organization to conclude that impairment indicators exist and that property and equipment may be impaired. There were no impairment losses related to property and equipment for the years ended March 31, 2024 and 2023.

# Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# Revenue recognition

The Organization is funded by contributions and grants from federal, foreign, and local government agencies, businesses, individuals, and other institutions. Unconditional support is recognized in the period the commitment is made. Conditional support is recognized in the financial period in which the condition is met. Grant revenue is recorded when expenses are incurred unless the grant is unconditional, in which case the revenue is earned upon the Organization learning that the grant was approved.

Contract revenue is reported at the amount that reflects the consideration the Organization expects to receive in exchange for the services provided. Revenue is recognized either over time or at a point in time depending on the nature of the performance obligations of each specific contract. For all contracts where revenue is recognized over time, management has estimated that services are provided evenly throughout the contract period and are recognized on a straight-line basis over the life of the contract.

Membership dues are reported at the amount that reflects the consideration the Organization expects to receive in exchange for the services and benefits provided to members. Membership dues are invoiced based on a calendar year. Member benefits are provided continuously over the course of the year. Revenue is recognized over time, on a straight-line basis over the one-year membership period. Membership dues received in advance that are applicable to future periods are contract liabilities and are included in deferred revenue in the accompanying statements of financial position. Any members who have not paid membership dues by the March 31 but have participated in member activities have their membership dues recorded as accounts receivable.

When the Organization holds a conference and collects registration fees for attendance, revenue is recognized at the point in time when the event occurs.

Sponsorship and registration income are recognized as revenue in the period in which the events take place. Sponsorships and registration income received relating to future periods are contract liabilities and are recorded as deferred revenue in the accompanying financial statements.

In-kind contributions are recorded at their fair value as of the date of the gift.

#### Disaggregation of revenue

The Organization recognizes revenue over time or at a point in time based on the performance obligations of each contract. Various economic factors affect revenues and cash flows. Revenue for each source is typically collected within 60 days.

#### Functional allocation of expenses

The costs of providing the various programs and other activities have been summarized on a functional basis in the statements of activities and in detail on the statements of functional expenses. Accordingly, certain costs have been allocated among the programs and supporting services benefited. Expenses directly attributed to a specific functional area of the Organization are reported as direct expenses to the programmatic area and those expenses that benefit more than one function are allocated on a basis of estimated time and effort or other reasonable basis. Although these allocation estimates are reasonable, actual expenses by function may differ. Management and general expenses include those expenses that are not directly identifiable with any other specific function but provide for the overall support and direction of the Organization.

#### Use of estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

# Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Income tax

The Organization qualifies as a tax-exempt organization under section 501(c)(3) of the Internal Revenue Code. As a result, the Organization is not subject to federal income taxes, except for taxes on unrelated business income. There was no significant unrelated business income for the years ended March 31, 2024 and 2023. The Organization has determined that it does not have any material unrecognized tax benefits or obligations as of March 31, 2024, and believes they are no longer subject to any income tax examinations for the years prior to March 31, 2020. The Organization's returns generally remain open for IRS and state examination for three years.

#### Advertising expense

Advertising expense, which totaled \$1,782 and \$50,562 for the years ended March 31, 2024 and 2023, respectively, is expensed in the fiscal period incurred. This is included in Advertising and paid outreach in the Statements of Functional Expenses.

#### Recently adopted accounting pronouncements

C2ES adopted FASB ASU No. 2020-07, *Not-for-Profit Entities (Topic 958): Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets.* The new guidance requires nonprofit entities to present contributed nonfinancial assets as a separate line item in the Statement of Activities, apart from contributions of cash or other financial assets. The standard also increases the disclosure requirements around contributed nonfinancial assets, including disaggregating by category the types of contributed nonfinancial assets a nonprofit entity has received. C2ES has updated disclosures as necessary.

C2ES adopted FASB ASU 2016-13 Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments (ASC 326). This standard sets forth a current expected credit loss model ("CECL"), which requires the measurement of credit losses for most financial assets and certain other instruments that are not measured at fair value through net income. The standard requires the application of a current expected credit loss model, which is a new impairment model based on expected losses. Under this model, an entity recognizes an allowance for expected credit losses based on historical experience, current conditions, and forecasted information rather than the previous methodology of delaying recognition of credit losses until it is probable a loss has been incurred.

#### Note 3. LIQUIDITY AND AVAILABILITY OF FINANCIAL ASSETS

The Organization's financial assets available within one year of the statement of financial position date for general expenditure are as follows as of March 31,:

Financial assets available at year end:	2024	2023
Cash and cash equivalents	\$ 3,737,806	\$ 4,120,646
Investments	11,932,742	10,846,386
Grants receivable, net	4,844,482	3,965,757
Accounts receivable, net	1,178,776	788,624
Total financial assets at year end	21,693,806	19,721,413
Less amounts not available for general expenditure within one year:		
Assets subject to contractual or donor restriction	15,121,455	15,147,578
Financial assets available to meet general expenditures within one year	\$ 6,572,351	\$ 4,573,835

As part of the Organization's liquidity management, the Organization has a policy to structure its financial assets to be available and liquid as its obligations become due. The Organization typically pays its obligations using cash. The Organization invests cash balances in excess of daily requirements in short-term money market investments.

# Note 4. INVESTMENTS AND FAIR VALUE MEASUREMENT

In accordance with FASB ASC 820, *Fair Value Measurement*, the Organization has categorized its financial instruments, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy.

The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobserved inputs (Level 3). If the inputs used to measure the financial instruments fall within different levels of hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument. Investments recorded in the statement of financial position are categorized based on the inputs to valuation techniques as follows:

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that are accessible at the measurement date. (e.g., equity securities traded on the New York Stock Exchange).

Level 2 – Level 2 inputs are from other than quoted market prices included in Level 1 that are observable for the asset or liability, either directly or indirectly (e.g., quoted market prices of similar assets or liabilities in active markets, or quoted market prices for identical or similar assets or liabilities in markets that are not active).

Level 3 – Level 3 inputs are unobservable (e.g., a company's own data) and should be used to measure fair value to the extent that observable inputs are not available.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of the unobservable inputs.

Investments are stated at fair value and consist of the following at March 31, 2024:

Additionally, at March 31, 2025, C2ES had certificates of deposit valued at \$948,000. These are not required to be reported at fair value and, instead, are reported at amortized cost so they are excluded from the above table.

Investments are stated at fair value and consist of the following at March 31, 2023:

	<u>Level 1</u>
Marketable securities	\$ 18,307
U.S. treasuries	 10,828,079
	\$ 10,846,386

Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect account balances and the amounts reported in the accompanying financial statements.

# Note 4. INVESTMENTS AND FAIR VALUE MEASUREMENT (CONTINUED)

Net investment income consists of the following for the year ended March 31,:

	2024 2			2023
Interest	\$	578,974	\$	176,600
Loss on sale of investments		(19,233)		(43,389)
Unrealized gain (loss)		14,808		(6,348)
Total	\$	574,549	\$	126,863

#### Note 5. PROPERTY AND EQUIPMENT, NET

The following is a summary of property and equipment and accumulated depreciation at March 31,:

	2024	2024 2023	
Computers	\$ 15,742	\$	16,294
Furniture and fixtures	96,955		96,955
Equipment	33,207		30,646
Leasehold improvements	 9,532		9,532
	 155,436		153,427
Less: accumulated depreciation and			
amortization	 (114,942)		(88,483)
Property and equipment, net	\$ 40,494	\$	64,944

Depreciation and amortization expense for the years ended March 31, 2024 and 2023 was \$27,514 and \$24,318, respectively.

# Note 6. DEFERRED COMPENSATION PLAN INVESTMENTS AND OBLIGATION

The Organization maintains a 457(b)-retirement plan (the Plan) covering certain management employees. Employees may elect to defer up to 100% of their compensation in accordance with Internal Revenue Service deferral limits. Participants in the 457(b) plan are entitled to be vested into the plan as of the first day of employment. The Organization may make non-elective contributions to the 457(b) plan. During the years ended March 31, 2024 and 2023, the Organization made no contributions to the plan. As of March 31, 2024 and 2023, the obligation to the covered participants under the Plan was \$366,078 and \$296,300, respectively.

The investments of the Plan consist of a fully benefit-responsive investment contract with Lincoln Financial Group (Lincoln) and are held in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than zero percent. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The contract meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported by Lincoln, represents contributions made under the contracts, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

# Note 6. DEFERRED COMPENSATION PLAN INVESTMENTS AND OBLIGATION (CONTINUED)

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligation may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA and (5) premature termination of the contract. No events are probably of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include: (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, and (4) a material amendment to the agreement without the consent of the

The following table provides a summary of changes in the contract value for the years ended March

	2024			2023	
Deferred compensation investments, beginning of year	\$	296,300		\$	328,250
Unrealized gain (loss) on investments		69,778	_		(31,950)
Deferred compensation investments, end of year	\$	366,078		\$	296,300

# Note 7. CONCENTRATIONS, RISKS, AND UNCERTAINTIES

#### Concentrations of credit risk

The Organization maintains cash balances at various financial institutions. These balances may, from time to time, exceed amounts insured by the Federal Deposit Insurance Corporation. The Organization has never experienced any losses with respect to its bank balances in excess of federally insured amounts and management believes that there is no significant risk as a result of maintaining these accounts. At March 31, 2024 and 2023, cash balances exceeded federal insurance limits by \$3,241,541 and \$3,545,422, respectively.

#### Concentrations of revenue

The Organization receives a substantial portion of its support from donors. The Organization relies on the support of these donors to ensure the continuing operations of the organization. During the years ended March 31, 2024 and 2023, the Organization received 48% and 55% of its revenue from one and three donors, respectively.

# Note 8. NET ASSETS WITH DONOR RESTRICTIONS

At March 31, 2024 and 2023, net assets with donor restrictions consisted of the following:

	2024	2023
US policy and outreach	\$ 2,774,179	\$ 4,490,555
International strategies	3,803,032	9,158,946
Business engagement	8,544,244	1,498,077
Total net assets with donor restrictions	\$ 15,121,455	\$ 15,147,578

Net assets were released from donor restrictions by incurring expenses satisfying the restricted purposes. Purpose restrictions accomplished during the years ended March 31, 2024 and 2023 were as follows:

	20	24	2023
US policy and outreach	\$ 2,7	11,147	\$ 1,439,679
International strategies	7,5	79,090	3,542,682
Business engagement	1,24	48,985	335,031
Total net assets released from restrictions	\$ 11,5	39,222	\$ 5,317,392

#### Note 9. **OPERATING LEASES**

The Organization entered into a lease agreement for office space in January 2019 which was scheduled to expire in February 2027. During the year ended March 31, 2024, the Organization terminated the lease effective August 31, 2024. The Organization incurred an early termination fee of \$398,260. As of March 31, 2024, the base monthly rent was \$30,731 which continued through the end of the term. Lease expense for the office space for the years ended March 31, 2024 and 2023 was \$368,677 and \$369,626, respectively. In addition, the Organization entered into a sublease agreement for a portion of the office space commencing in January 2019. As of March 31, 2024 and 2023, the base monthly rent was \$7,082 and \$6,729, respectively, with annual escalations of 2.5%. The subtenant paid the Organization for a portion of the office space as well as additional costs for the use of office equipment and telecommunications. Subtenant rental income for the years ended March 31, 2024 and 2023 was \$84,984 and \$81,822, respectively. The subtenant ended the sublease when the Organization terminated this lease.

The Organization entered into a lease agreement with Apple, Inc. for computer equipment that commenced in April 2021 and expired in April 2024. The lease agreement calls for monthly rent payments of \$951. Lease expense for the equipment for the years ended March 31, 2024 and 2023 was \$11,414 and \$11,414, respectively.

The Organization entered into a lease agreement for office equipment that commenced in December 2019 and expired in November 2024. The lease agreement calls for monthly rent payments of \$285. Lease expense for the office equipment for the years ended March 31, 2024 and 2023 was \$3,420 and \$3,420, respectively.

Below are the Organization's costs recognized in the Statement of Activities for the years ended March 31, 2024 and 2023, as well as additional quantitative information relating to its leases:

# Note 9. OPERATING LEASES (CONTINUED)

	2024		2023	
Operating lease cost	\$	374,117	\$	384,460
Operating cash flows from operating leases	\$	376,135	\$	367,356
Right-to-use assets obtained in exchange for new operating lease liabilities	\$	-	\$	1,723,953
Weighted-average remaining lease term (years) – operating leases		.50		3.79
Weighted-average discount rate – operating leases		2.20%		2.21%

The future minimum rental payments required under operating leases that have initial or remaining non-cancelable lease terms in excess of one year are as follows:

Year ended March 31, 2025	\$ 156,274
Less: amounts representing imputed interest	(867)
	\$ 155,407

During the year ended March 31, 2024, the Organization entered into a new lease for office space in Washington, D.C. A deposit of \$121,541 plus first month's rent of \$60,770 was paid to the new landlord in December 2023. The new lease commenced November 2024 starting with a 24-month "rent-free" period. The base monthly lease cost is \$63,848 with annual escalations of 2.5%. Additionally, the agreement provides the Organization with a Tenant Improvement Allowance (TIA) whereby the Organization is to be reimbursed for certain improvements made to the leased space in addition to interest of 6%. Management is currently in negotiations with the landlord to determine whether the costs advanced by the Organization will be repaid to the Organization by the landlord or if the landlord will repay the advanced costs by extending the rent-free period. If the landlord repays the TIA to the Organization, monthly payments will begin November 2026 and the future minimum payments will be as follows for the years ended March 31,:

2025	\$ -
2026	-
2027	319,240
2028	774,165
2029	793,533
Thereafter	 6,696,852
	\$ 8,583,790

If the landlord provides an extension of the rent-free period instead of repaying the Organization for the TIA, monthly payments will begin October 2028 and the future minimum payments will be as follows for the years ended March 31,:

2025	\$ -
2026	-
2027	-
2028	-
2029	400,859
Thereafter	 6,696,852
	\$ 7,097,711

# Note 10. EMPLOYEE BENEFIT PLAN

The Organization sponsors a 403(b) pension plan available for eligible employees who work more than 20 hours per week. Employer contributions are discretionary each plan year and are 100% vested at all times. Participation in employer discretionary contributions requires the completion of three months of service. Total employer discretionary contributions for the years ended March 31, 2024 and 2023 were \$187,599 and \$106,511, respectively.

# Note 11. SUBSEQUENT EVENTS

In preparing these financial statements, C2ES has evaluated events and transactions for potential recognition or disclosure through August 25, 2025, which is the date the financial statements were available to be issued.
